

# Satisfaction for Workers

People can't enjoy their jobs and work towards a sustainable future unless they have a work environment that everyone finds fun and exciting.

We create the ideal environment for a diversity of people, with diverse work styles, to thrive and shine, giving workers a sense of fulfillment and satisfaction.

## Efforts and recommendations to create better work styles and more comfortable environments

I think it's important for us to actually put our ideas on creating a comfortable environment into practice before we make recommendations to our customers. With work styles becoming

increasingly diversified, we will continue to imagine future work styles and try things out. We will draw upon the fruits of those experiences, both the successes and the failures, in our recommendations to customers. Projects such as office renovations require a tremendous amount of time and money, and we will actively challenge ourselves to create comfortable environments.
